## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments, filed on November 18, 2009, with respect to claims 1-9 have been considered and are persuasive. Accordingly, the rejection of claims 1-9 has been withdrawn.

### ***Allowable Subject Matter***

2. Claims 1-9 are allowed.

The following is the examiner's statement of reasons for allowance:

The art prior art does not teach or suggest directly or indirectly the limitation "calculating a difference between two of the plurality of reception power levels for two of the plurality of base station radio apparatuses; comparing the calculated difference with a predetermined threshold value; if the calculated difference is greater than the predetermined threshold: controlling transmission power of one of the two of the plurality of base station radio apparatuses so that the difference becomes equal to or smaller than the predetermined threshold value" in combination with other limitation of the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
